Note 3: • Please refer to the Grade Point Conversion tables listed below for JS4501 Medicine (MBChB) Programme and JS4502 Medicine (MBChB) Programme Global Physician-Leadership Stream (GPS).

Note 4: • The programme does not consider extended Mathematics module (M1/M2) to be one elective subject.

M1/M2 would contribute to the total HKDSE score if its attained level is higher than that of the worst one of the six subjects (i.e. Chi + Eng + Math + Best of Bio/Chem + Best 2 subjects). In that case, the score for the worst subject is replaced by a new score comprising half the original score of that subject and half the score of the extended Mathematics module. The calculation will be: $(M1/M2 + \text{lowest level obtained in the 6 subjects}) \div 2$.

For HKDSE students who are taking 2 elective subjects and an extended Mathematics module, half score of the extended Mathematics module will be counted in the total score.

For details, please refer to the programme website: <https://www.med.cuhk.edu.hk/study/prospective-students/undergraduate-study/programme-and-admission/mbchb-and-gps/admissions/jupas>

Remarks: ^ The above Elective Subjects refer to HKDSE Category A subjects. Category C Other Language subjects (Grade E or above) will be considered as an unspecified elective subject (i.e. 2nd elective subject) where applicable.
